

G3INV-20DT
2.000W/1.000W

Glass Heating Panel with Ionizer

Glass Heating Panel with Ionizer

2014-2015

G3INV-20DT 2.000W/1.000W

Remote Control

LED Display,
24hr Programming,
Child Safety Lock

Type X Aluminum
Heating Element

Moving Wheels

Ionizer produces charged ions and removes polluting air particles in an effective way, creating a healthy, safe and quiet environment.

Glass panel, light luxurious-slim design, ideal for modern spaces

Digital thermostat for temperature control and energy saving

Easy installation on the wall or in the floor (including wall brackets and castors)

Aluminum type X heating element (2 levels 1.000W/2.000W) for long lasting product lifecycle and efficient heating

Ionizer for healthy and relaxing environment

Water resistance IP 24

Overheating protection

Power cable length up to 1.5m

Technical Specifications

- Power 1.000/2.000W
- Glass panel
- Remote control
- Aluminum type X heating element
- Digital thermostat and overheat protection
- Fast heating efficiency, long duration water resistance IP 24
- Installation capability either into floor or onto wall
- Wheels for easy moving
- Dimensions 832x400x97 (mm)
