The **NAME** in dehumidifiers ensures...

Low noise levels for ideal conditions

Enjoy ideal conditions in your house with the completely silent Eva II Pro Wi-Fi series that provides the lowest noise level (37db) combined with great performance.

The low noise levels of Eva II Pro Wi-Fi series provides you with a relaxing and pleasant environment in your place with no disturbing sounds and humidity. Enjoy advanced technology and impressive noise-free results!

Dry and fragrant clothes in no time

Explore the ultimate solution for you to dry your clothes quickly and preserve their lovely smell they had right after taking them out of the washing machine. There is one secret and Inventor dehumidifiers share it with you! Clothes Dryer mode for clean and fresh clothes!

You no longer have to worry about rainy days and high humidity levels! The advanced Clothes Dryer mode of Inventor dehumidifiers, will impress you with the quick and effective results as well as with the particularly low functional cost, ensuring fresh clothes with great energy savings. This unique function will turn the dehumidifier into every housewife's best friend who wishes to save time and win back fragrant clothes!

Wi-Fi control anywhere and anytime

Ensure low functional cost thanks to the Wi-Fi control of Eva II Pro Wi-Fi series! Inventor was the first to incorporate Wi-Fi management to its dehumidifiers so as to offer the absolute control of your device whenever you desire!

Wi-Fi management of the dehumidifier will automatically transform your Smartphone or Tablet into the smartest remote controller, enabling you to check the humidity levels of your place - while you are away - and set the desired humidity percentage. You are now able to turn the dehumidifier on or off and set every function as if you were there. Wi-Fi control is the ultimate ally in the proper operation of your dehumidifier resulting in great energy savings as well as the ideal temperature and humidity conditions, even if you are not at home!

Absolutely healthy and clean atmosphere

The ultimate sense of freshness, similar to the one we feel while in nature, can now be magically achieved at home or work environment, thanks to the integrated Ionizer, Inventor dehumidifiers provide.

The natural way in which the Ionizer neutralizes the malicious of the atmosphere results in a clean, healthy and fresh environment, completely free of dirt, dust unpleasant scents and micro-organisms. The beneficiary effect of the Ionizer contributes in improving life quality, protecting you from diseases such as asthma and allergies. You will be surprised by the noticeable difference in the air quality of your place and the ultimate levels of comfort and relaxation!

Continuous Dehumidification

Excellent results even in the most demanding cases

You will be amazed with the results of Inventor dehumidifiers even in the most demanding conditions, meeting every need in an effective way.

In special cases such as rooms with intense humidity or remained shut for a very long period of time, the continuous dehumidification mode makes the dehumidifier work continuously (until the water tank is full) or permanently in the case of connection with the drainage pipe, absorbing humidity from the atmosphere. The device will work incessantly, regardless of the humidity percentage in order to eliminate even the slightest trace of it. You will be amazed by how drastic results can be when having the perfect ally to deal with even the hardest cases!

Overflow Protection

Trouble-free operation

We always trust the best and the ones who care for us! Inventor dehumidifiers mind their safe operation, preventing from any incident that might worry you!

With overflow protection, you gain full control in order to empty the water tank every time it is full, avoiding potential leaks. The special sound and the light indication will activate to warn you, relieving you from any relevant concern and offering ideal climate conditions in the most safe and efficient way!

Continuous Drainage

Carefree operation and superb results

Let the experts take care of you, ensuring the safe operation of the dehumidifier. The continuous drainage mode provides exactly what you need.

The drain hose is supplied with the dehumidifier and connects your appliance to the chifton, so you can operate the dehumidifier continuously, without any overflowing risk. Forget about constantly emptying the water tank since water is directly led in the drain and adjust the operation required by the conditions in your area, to fight humidity once and for all.

Rise

Enhance Heating

Enhance the heating of your space

Ideal levels of humidity in the warmest way.

The advanced Desiccant technology of Rise dehumidifier allows the use of the dehumidifier even in extremely cold (1-37) environments, while enhancing heating results, saving energy and money. The air is heated before channeled in the atmosphere, which increases the room temperature. With desiccant dehumidifiers, you can enjoy ideal conditions in your home, as well as reduce the cost of heating by almost 20%. Choose wisely and create instantly and economically, an excellent environment for you and your loved ones!

Turbo

Ideally moisture levels at zero time

Tackle even the most difficult cases of high humidity levels in house areas and get rid of the unpleasant smell through the Turbo mode!

The increased air output contributes in dealing with humidity even in the remotest corners of the house, on the ceiling or at areas that have been affected by humidity for a long time. The upgraded Turbo mode will untie your hands with the drastic changes that not only promises but does make, since it is proved that it can restore humidity levels in a flooded basement, or a place that hasn't been reached for months. Enabling the Turbo mode, creates a comfortable and healthy environment in zero time!

Ionizer

Absolutely healthy and clean atmosphere
