Air Purifier

www.inventor.ac/en

Ionizer

Ensure a clean and fresh atmosphere with the integrated Ionizer. The negative ions released, absorb dust, bacteria, smoke and other unpleasant odors, offering a healthy atmosphere.

HEPA & Active Carbon Filter

Even the smallest amount of dust can be removed, thanks to the combination of HEPA & Active Carbon filter. Removes germs and obstructs the formation of allergies and diseases, ensuring a clean and healthy environment.

Filter Cleaning Reminder

Protect the air purifier by keeping the filter always clean, thanks to the Filter Cleaning Reminder function. Filter indication will notify you every time the filter is required to be cleaned, contributing to the efficient operation of the device and increasing the lifeline of the air purifier.

Sleep Mode

Select the Silent Mode and the air purifier will operate at the lowest noise level. Ensure total silence, wherever and whenever you desire, especially in study areas or bedrooms. Enjoy the sense of absolute silence in a clean and healthy space.

Model	Power Supply (V/Hz/Ph)	Power Consumption (W)	Room Coverage (m ²)	CADR (m ³ /h)	Noise Level ((L/H) db(A))	Net Weight (kg)
NAM-ION200	220-240/50/1	50	20	200	24.4 / 47.4	5.7
