Dual Power Setting

Large Bin Capacity

8m Operating Radius

Model	Capacity (L)	Rated Power (W)	Noise Level [db(A)]	Working Radius (m)	Additional Parts
EP-MC78	3	850	78	8	6
EP-MNC69	2.5	800	73	8	6

HEPA Filter

Enjoy a healthy atmosphere without dust, bacteria, viruses, germs, etc. The HEPA filter of the vacuum cleaner actively contributes to the retention of small and large particles, offering you a clean environment, free from anything harmful that may enter your place and alter its high-quality levels.

6-Cyclone Technology

The 6-Cyclone Technology of EP-MC78 vacuum cleaner achieves spectacular results by capturing even the smallest dust particles and providing you with radiant cleanliness and a healthy atmosphere near you.

Easy Emptying

With just one handle and a single 'click', the container can be emptied. With the advanced and simple drainage system, thanks to its good condition, you always ensure spectacular results in the performance of your vacuum cleaner and a proper use of the appliance as often as you need it.

Remote Control

12m Operating Radius

Bag Replacement
Light Indicator

Model	Capacity (L)	Rated Power (W)	Noise Level [db(A)]	Working Radius (m)	Additional Parts
EP-BG62	3.5	700	61	12	5
EP-BG69	3	700	68	10	6

Low Noise Level

Due to the special construction of the appliance, it can be operated with very low noise level, which allows you to use the vacuum cleaner easily and with the best possible results every hour of the day. With a low noise level, it is now possible to combine high power without annoying noises and enjoy a clean and healthy home.

HEPA Filter

Enjoy a healthy atmosphere without dust, bacteria, viruses, germs, etc. The HEPA filter of the vacuum cleaner actively contributes to the retention of small and large particles, offering you a clean environment, free from anything harmful that may enter your place and alter its high-quality levels.

LED Display

Select easily and efficiently the cleaning program you want through the latest LED display technology available in the device.

With a completely user-friendly environment and through the corresponding lights, you can select the program that corresponds to the surface you need to clean, while you can change the intensity levels, enjoying impressive cleaning results in your place.

Advanced Nozzle for maximum performance

Deep Clean

Adjust the vacuum cleaner nozzle in **Deep Clean** mode through the slider switch and secure deep cleaning in your precious carpets. Activating the operation, the vacuum cleaner gives you the **maximum absorbency** with impressive results.

Easy Clean

Selecting the function Easy Clean from the nozzle, the cylindrical scrolling assistant is activated, offering greater **comfort and ease of use**, ensuring immediately spectacular results.

Accessories for every cleaning need of your home!

Parquet brush

Parquet brush is the only solution for **cleaning sensitive floors**, such as parquet, laminate, polished stone, and high-quality tiles easily scratched. Gently cleans the "sensitive" floor effectively, thanks to the soft hairs of brush so that it glides easily on the floor.

Dust Nozzle

The combination of the circular head & the soft bristles of the nozzle is particularly effective in collecting dust and particles from the surfaces. It allows you to effectively clean **windowsills, bookshelves, picture frames, lamps, vents,** and even your home decoration objects or the silk plants.

Crevice Nozzle

It is probably the second most commonly used accessory of your vacuum cleaner, as the super-focused suction capabilities offer immediate and perfect results in every use, such as along the bases of cabinets and walls, **between the appliances,** under the furniture, on the stairs, in the **corners,** under the sofa cushions etc.

Brush for Pet hair

Do you have **pets** or **thick pile rugs** in your home? Then the Brush for Pet hair is the best choice for you. The rotating brushes and the large suction nozzle ensure perfect results even in the most demanding tasks.

Furniture Nozzle

The right accessory for cleaning fabrics, leather, or vinyl. It has a small, flat head and strong suction, which is suitable for **cleaning mattresses, sofas,** and upholsteries, but can also clean perfectly your **car seats.**
