DEHUMIDIFIERS CATALOGUE **2020**

Smart Solutions in your place!

Wi-Fi

Air Purifier Operation

UVC Lamp

Clothes Drying Smart Sensor

2 YEARS WARRANTY

Ionizer

Wi-Fi

Autonomous Air Purifier Function

Air Quality Indicator

Swing Louver

Model	Dehumidifying Capacity	Power Consumption	Noise Level	Water Tank
AT-IONUV-20L	**20** (L/24 hours)	**265** (W)	**38** [dB(A)]	**2.9** (L)
AT-IONUV-25L	**25** (L/24 hours)	**270** (W)	**39** [dB(A)]	**2.9** (L)

Dehumidifier & Air Purifier

Thanks to the advanced double operation of the device you can obtain the most ideal conditions in your place, reducing humidity levels and creating a clean and healthy atmosphere free of dust and bacteria.

UVC Lamp

The ultraviolet light of the UVC lamp breaks the molecules of the microorganisms such as germs, viruses, fungi and bacteria that might be in the device, offering healthy atmosphere in your place.

Sterilization HEPA Filter 97.79%

The Sterilization HEPA Filter with the ability to withhold a percentage of 97.79% of particles with size up to 0.3 micrometers, helps to remove dust and germs, guaranteeing excellent air quality in your place and reducing radically the possibilities of allergic reactions.

2 YEARS WARRANTY

Antibacterial Protection

Low Noise Level

Touch Panel

Child Lock

8-hour Timer

Model	Dehumidifying Capacity	Power Consumption	Noise Level	Water Tank
SMR-25L	**25** (L/24 hours)	**247** (W)	**39** [dB(A)]	**4.0** (L)

Clothes Drying Smart Sensor

Ensure dry clothes immediately, effectively, and with low cost! The Clothes Drying Smart Sensor detects wet clothes and directs the air towards them, reducing drastically the time they need to dry and saving energy and money.

4D Swing Louver

Thanks to the unique and innovative 4D Swing Louver, you ensure full flow and uniform air distribution in your place, ensuring flawless results in less time and with less possible energy consumption!

Large Water Tank

With the 4-liter water tank of the dehumidifier, you ensure continuous and trouble-free operation of your device, as emptying the water tank is no longer a common process that you should be concerned about.

2 YEARS WARRANTY

Smart Dehumidification

Continuous Dehumidification

Overflow Protection

Continuous Drainage

24- hour Timer

Model	Dehumidifying Capacity	Power Consumption	Noise Level	Water Tank
EVP-WF16L	**16** (L/24 hours)	**240** (W)	**37** [dB(A)]	**3.0** (L)
EVP-WF20L	**20** (L/24 hours)	**260** (W)	**37** [dB(A)]	**3.0** (L)

Wi-Fi

Remote control of your device wherever you want at any time through your smart-phone that transforms into a smart remote control. Save energy & secure the ultimate control of the device without your presence!

Low Noise Level

Enjoy ideal conditions in your place and noise-free results! The dehumidifier has low noise level that creates a relaxing and pleasant environment with no disturbing sounds and humidity.

Clothes Drying

Dry your clothes efficiently and hygienically with the Dryer mode. Place the clothes rack in a small room (with the door closed) and activate the clothes drying program. The air produced offers you dry clothes quickly and preserve their lovely smell they had right after taking them out of the washing machine, in a short time, while keeping the room completely dry.

2 YEARS WARRANTY

Continuous Drainage

Easy mobility (handle & casters)

24h

24- hour Timer

With Compressor

Smart Defrosting

Model	Dehumidifying Capacity	Power Consumption	Noise Level	Water Tank
FRS-10L	**10** (L/24 hours)	**190** (W)	**39** [dB(A)]	**2.1** (L)
FRS-12L	**12** (L/24 hours)	**200** (W)	**41** [dB(A)]	**2.1** (L)

Silent

Fight the humidity with the most noise-free way thanks to the Silent mode. At the touch of a button, you upgrade the atmosphere quality in your place both in terms of humidity as well as in absolute silence!

Continuous Dehumidification

Benefit from the operation of continuous dehumidification where it is necessary. With continuous dehumidification the device acts as a catalyst in conditions of high demand, such as drying clothes or flooded rooms, eliminating moisture quickly and effectively.

Overflow Protection

Enjoy the safe operation of your dehumidifier thanks to the special equipment for protection from overflow. When the water tank is full the dehumidifier automatically switches off and the Full indicator illuminates informing you that the water tank must be emptied, preventing any leakage.

2 YEARS WARRANTY

*Power Consumption 30W in fan mode / 330W in ECO mode / 650W in TURBO mode

ECO Mode | Quiet Operation | Swing Louver | Turbo | 8- hour Timer

Model	Dehumidifying Capacity	Power Consumption*	Noise Level	Water Tank
RS3ION-8L	**8** (L/24 hours)	**30/330/650** (W)	**39** [dB(A)]	**2.0** (L)

Ionizer

The Ionizer neutralizes harmful floating particles, creating a clean and healthy environment free of pollutants, dust, odors, and microorganisms, contributing to the improvement of the quality of your life.

Enhance heating

Desiccant technology allows the use of the dehumidifier even in areas with very low temperatures (from 1 °C), enhancing the heating efficiency and saving energy and money at the same time.

Desiccant Technology

Benefit from the without compressor Desiccant technology and banish humidity, efficiently with low cost. Desiccant technology offers economical dehumidification in rooms heated only for a few hours per day or with an ambient temperature below 15°C.

2 YEARS WARRANTY

Turbo

Continuous Drainage

Filter Cleaning Reminder

Clothes Drying

24- hour Timer

Model	Dehumidifying Capacity	Power Consumption	Noise Level (H/L)	Water Tank
PWR-WIFI-30L	**30** (L/24 hours)	**290** (W)	**50/48** [dB(A)]	**3.0** (L)
PWR-WIFI-50L	**50** (L/24 hours)	**550** (W)	**49/48** [dB(A)]	**6.0** (L)

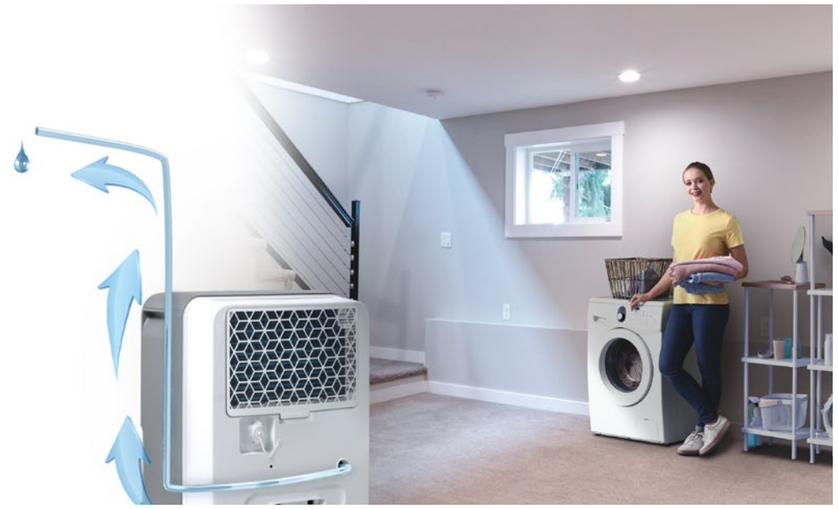
Wi-Fi

Remote control of your device wherever you want at any time through your smart-phone that transforms into a smart remote control. Save energy & secure the ultimate control of the device without your presence!

Water Pump

The built-in water pump with a lifting capacity of 5 meters allows you to con-nect the device to the sewer network. Ensure continuous drainage even in the most demanding situations.

*The water pump refers only to the model PWR-WIFI-50L



Smart Dehumidification

Save money and energy, thanks to the Smart dehu-midification function. The dehumidifier automatical-ly selects ideal moisture levels according to the room temperature, thus ensuring low power consumption and excellent conditions in your area.

092020

Rating conditions: Dehumidifying Capacity: 30°C - 80%RH / Power Consumption 26,7°C - 60%RH.
