Quiet Operation

Select the Quiet Operation and ensure the fan operation of the lowest noise level, while enjoying the dewiness that it offers, relieved from unpleasant sounds.

Sleep Mode

Choose the Sleep Mode of the appliance, which will operate in low speed for 30' and then in Quiet Operation automatically, while shutting down the majority of the indications, offering a much more comfortable sleep time.

7.5-Hour Timer

You can easily and precisely schedule the duration of the initiation and termination of the fan operation, avoiding its purposeless function and save energy. At the same time you can avoid accidents especially if you have a pet at home.

100% Copper Silent Motor

The 100% copper material of the motor lengthens the lifeline of the appliance ensuring maximum performance and a much more carefree and silent operation if compared with the compatible aluminum motors.

Model	Power (W)	Speeds	Fan Diameter	Remote Controller	Timer (hours)	Height (cm)
FN40B-INV	55 (32~55)	3	40	Not	7.5	114~140
